PRODUCT EVALUATION

WIN-1643 Reevaluation Date: **December 2015**

Effective Date: October 1, 2012

The following product has been evaluated for compliance with the wind loads specified in the **International Residential Code** (IRC) and the **International Building Code** (IBC).

This product evaluation is not an endorsement of this product or a recommendation that this product be used. The Texas Department of Insurance has not authorized the use of any information contained in the product evaluation for advertising, or other commercial or promotional purpose.

This product evaluation is intended for use by those individuals who are following the design wind load criteria in Chapter 3 of the IRC and Section 1609 of the IBC. The design loads determined for the building or structure shall not exceed the design load rating specified for the products shown in the limitations section of this product evaluation. This product evaluation does not relieve a Texas licensed engineer of his responsibilities as outlined in the Texas Insurance Code, the Texas Administrative Code and the Texas Engineering Practice Act.

Sunrise Coastal Vinyl Fixed Casement Windows, Replacement Construction, Non-impact Resistant, manufactured by

Sunrise Windows, Ltd. 200 Enterprise Drive

Temperance, Michigan 48182 Telephone: (734) 847-8778

General Description:

System	Description	Label Rating	Design Pressure Rating
1	Sunrise Coastal Vinyl Fixed	R-PG50 54 x 76-Type FW	\pm 50 psf
	Casement Windows; O		

Product Dimensions:

System	Overall Size
1	54" x 76"

Product Identification (Certification Agency Label on Window):

System		
1	Certification Agency	Keystone
	Manufacturer's Name or Code Name	CAR 64-120
	Product Name	Sunrise Coastal Fixed Casement
	Test Standards	AAMA/WDMA/CSA 101/I.S.2/A440-08

Impact Resistance:

Impact Resistant	Requirement	
No	Impact protective system required when product is installed	
	in areas where windborne debris protection is required	

Installation: The wood wall framing members shall be minimum Southern Yellow Pine dimension lumber. The windows shall be secured to the wall framing using the frame of the window with minimum No. 8 x $2\frac{1}{2}$ " screws. Along each side jamb, the fasteners shall be located approximately 6 inches from each corner. No fasteners are required in the head and the sill. The fasteners shall be long enough to penetrate a minimum of $1\frac{1}{2}$ inches into the wall framing.

Note: The manufacturer's installation instructions shall be available on the job site during installation. All fasteners shall be corrosion resistant as specified in the International Residential Code (IRC) and the International Building Code (IBC) and the Texas Revisions.
